ESPIEL
Professional

Points of Excellence

- Premium Customer Service by delivering efficient performance
- Long-term, collaborative & trusting partnerships
- Reliability and ability to meet deadlines in all areas of the partnership
- Active collaboration and innovative solutions
- Excellent quality & premium design products
- Flexibility upon customer's request
- Customized products upon request
- Exclusive agency of worldwide brands under ESPIEL partners alliance
- Wide variety of over 10.000 articles always on stock
- More than 3.000 novelties annually
- Sustainability and commitment to social standards
- Competitiveness in quality & pricing
- Effective quality management system by obtaining all the necessary certificates
- Eco Friendly products
- Integrated warehouse management & logistics system
- A "dynamic" site (www.espiel.gr), continiously enriched with new product codes, including the entire home, professional (HO.RE.CA) and deco collections. It is easy to be used and allows our customers to sign-in and check for existing & new products and their availability

Features & Benefits

Espiel's all products meet the quality standard for food service tableware and insure compliance according to European regulations.

Every product has passed the relevant food safety test according to each material, that ensures the safety of contact with food:

- Eco friendly materials
- Excellent quality and design
- Lead Free
- Cadmium Free
- Inglaze procedures for long product lifetime
- Professional sustainability to hard, all-day use
- Resistance and durability

Seltmann Weiden

OVER 250 YEARS OF EXPERIENCE
in porcelain

CONSTANT INNOVATION
modern forms & elegant designs

FULL CUSTOMISATION
in house

DEEP TECHNOLOGICAL KNOW-HOW
one of Europe's most high-tech manufactories

From raw materials extraction to development to production **we have 100 % autonomy and independence!**

20 GOOD REASONS to buy Seltmann Weiden Porcelain

1. SELTMANN WEIDEN porcelain is lead-and cadmium- free.
2. The body of Seltmann Weiden porcelain is made from the following raw-materials: Caolin (50%), Quartz (25%) and Feldspar (25%).
3. Seltmann Weiden porcelain is fired with eco-friendly natural gas. Every piece of white porcelain has to pass two firings. The high firing temperature, the highest one for ceramic products, in conjunction with the raw materials, gives our product its extreme hardness and durability.
4. The glaze of Seltmann Weiden porcelain is extremely hard. In practice, this means that neither knives nor other cutlery are able to scratch or otherwise damage the glaze of the porcelain.
5. Other ceramic products like, Bone china, Fine China or Vitreous China, attain a lower level of hardness than Seltmann Weiden porcelain. This means they are more fragile than our porcelain.
6. The hardness of the body and the glaze makes Seltmann Weiden porcelain extremely durable and suitable for daily use in hotels and restaurants. It is highly resistant against breakage and chipping.
7. Due to reasons relating to production and technology the feet of hard porcelain products remain unglazed. At Seltmann Weiden they are polished with diamonds. This ensures the optimal protection of sensitive surfaces.
8. The properly polished feet of porcelain articles cannot abrade any metal from metal surfaces like metal tables of shelves, and cannot transfer metal traces to the glaze of a plate on which it is stacked.
9. Properly polished feet have another advantage: the plates don't wobble or spin on tables.
10. The surface of the center of the plates is absolutely level, there is no heightening or deepening on the center. That means, gravy stays where it is supposed to stay and doesn't run to the middle or outside of the centre.
11. Seltmann Weiden porcelain is an excellent heat-storing material. In order to support this particular feature, the bodies of the center of the plates are thicker than the rims.
12. Seltmann Weiden porcelain is fully vitrified porcelain which is an absolute dense. That means that it doesn't absorb any liquid even through unglazed parts like the feet – a crucial factor for hygiene.
13. The extremely smooth glazed surface of the porcelain does not leave any openings to leftovers or harmful germs.
14. Seltmann Weiden porcelain is 100% dishwasher-safe, no matter if it is decorated or undecorated. Even gold decorations are 100% dishwasher safe.
15. Seltmann Weiden porcelain is 100% microwave proof. The only exceptions are decorated items which contain metals such as gold or platinum.
16. Seltmann Weiden porcelain can stand extremely high temperatures without any damage. Therefore, it can be used in conventional ovens as well as in salamanders, for soufflés and au gratin.
17. The measurements of Seltmann Weiden porcelain articles will always stay constant, even if the production is made in different years.
18. Due to the exclusive production in our plants in Germany we are very flexible and can fulfill the wishes and needs of our customers very quickly. Short-term delivery is no problem.
19. Since its foundation, Seltmann Weiden has been 100% family owned. Every generation of the Seltmann family has taken pride in the extremely high quality Seltmann Weiden porcelain. Constant investments in state-of-the-art production technologies guarantee that, now and in the future, the name Seltmann Weiden porcelain is synonymous with the highest quality.
20. Seltmann Weiden porcelain is a true 100% Made-in-Germany product of excellent quality. To prove, every article is back stamped with "Made-in-Germany".

SELTMANN EDGE-CHIP WARRANTY

PRODUCTS COVERED: The Seltmann Edge-Chip Warranty is valid for all round and oval plates, bowls, saucers and platters that have a rolled edge..

COVER DETAILS: The products covered will be replaced if their edges chip during the period of cover and only when the products have been used under ormal food service conditions comprising proper refrigeration, serving, washing and storage. The warranty applies also when the products are used in an oven but not including pizza ovens. The warranty does not extend to other types of breakages and the validity of the claim is at the solediscretion of Seltmann Weiden.

PERIOD OF COVER: Products are covered for three years from the date of invoice of the original order.

CLAIMS: Any claim should be returned by the customer toyour dealer / distributor for inspection at the customer's own cost. A copy of the purchase receipt has to be provided, along with information about the chip and the location where the product was used. When required, Seltmann Weiden or our authorised dealers must be able to inspect the location to ascertain the reason for chipping. Claims are only valid when made by the original customer at the original location indicated on the purchase order.

The following collections are with rolled edges:
Coffee-E-Motion, Compact, Coup Fine Dining, Diamant,Imperial, Laguna, Lukullus, Luxor, Mainau, Mandarin,Marienbad, Maxim, Meran, Salzburg, Savoy, Vitalis.

Straight, timeless and functional – these are the characteristics that our new porcelain series **GOOD MOOD** should combine.

This porcelain series represents an excellent handling and in addition it functions perfectly for the right presentation of food.

GOOD MOOD represents a healthy diet as well as good spirits, a great atmosphere and healthy food.

For proper maintenance of cast-iron products over time you are advised to remove the stuck-on food and hand wash with dishwashing liquid.
Avoid using sharp tools, harsh chemicals or steel brush.
Stubborn food residue may also be loosed be boiling water in the pan.
Thoroughly dry when clean and apply a layer of olive oil after every use for proper maintenance of the finish and extending the lifetime of the product.

Volcano line is an upgrade version of Cast-Iron products with durable outer color fired 2-times and inner enamel. Inner enamel makes the product rust-proof without having to go through seasoning procedure with every use. Suitable for all kinds of stoves and oven up to 220oC. Make sure to apply food-grade oil at the rim before use and after cleaning, to protect the area.

MOQ : 2 | : 8

Marble is a natural stone with no synthetic coatings, making it safe for contact with food. It stays cooler than room temperature, which makes it perfect for cheese/deli meats, pastries and cold appetizers.
Care Instructions: Product surface is polished to minimize absorbency, however marble is a porous material, so it can absorb liquids, therefore wipe immediatelly in case of spills from wine/coffee etc.
Hand wash only with warm water and mild dish soap, use a soft sponge or cloth, dry immediately with a towel to prevent water spots. Avoid contact with acidic/oily/salty foods, cutting directly, leaving food remains on the surface for long time.
Store with felt pads or cloth between stacked pieces.

Mango is an Eco-Friendly and sustainable wood and it is harvested only after trees stop bearing fruit, making it an environmentally responsible choice.
Lightweight and yet Strong, mango is a hard, dense wood that resists cracking and wear when properly cared for—great for everyday serving use.
Each piece has unique grain patterns and warm tones, giving tableware a handcrafted, premium look. Treated with food-grade oils, mango wood is safe for serving dry and semi-dry foods and at the same time repels moisture.
Care instructions:
Hand wash only with warm water and mild soap, use a soft sponge or cloth, rinse quickly—do not soak, wipe dry immediatelly with a soft cloth after washing to prevent moisture absorption, store in a cool/dry place, apply food-grade mineral oil or coconut oil every few weeks to maintain shine and prevent drying.

Beech is a hard, strong wood with tight grain and uniform texture. Eco-friendly choice compared to slower-growing hardwoods. Warm color with a subtle reddish hue.
For cleaning, use a damp cloth and dry immediatelly.

Hand Wash | Stackable | Professional | Food Safe

Acacia is a dense hardwood, making it more resistant to scratches, dents, and cracking compared to softer woods. It has natural oils that repel moisture.
Great for everyday food use. Rich golden to dark warm tones with striking grain patterns. Each piece looks unique. It grows quickly and is sustainably sourced, making it a more environmentally responsible hardwood.
Care instructions: Hand wash only with warm water and mild soap, use a soft sponge or cloth, rinse quickly—do not soak, wipe dry immediatelly with a soft cloth after washing to prevent moisture absorption, store in a cool/dry place, apply food-grade mineral oil or coconut oil every few weeks to maintain shine and prevent drying.

MANGO WOOD W/WHITE RESIN

Hand Wash | Handmade | Professional | Food Safe

Mango is an Eco-Friendly and sustainable wood and it is harvested only after trees stop bearing fruit, making it an environmentally responsible choice.
Lightweight and yet Strong, mango is a hard, dense wood that resists cracking and wear when properly cared for—great for everyday serving use. Each piece has unique grain patterns and warm tones, giving table-ware a handcrafted, premium look. Treated with food-grade oils, mango wood is safe for serving dry and semi-dry foods and at the same time repels moisture.
Care instructions: Hand wash only with warm water and mild soap, use a soft sponge or cloth, rinse quickly—do not soak, wipe dry immediatelly with a soft cloth after washing to prevent moisture absorption, store in a cool/dry place, apply food-grade mineral oil or coconut oil every few weeks to maintain shine and prevent drying.

PAULOWNIA WOOD

Paulownia wood is light making it easy to handle, endures moist and do not bend or crack easily even after hard use. Hypoallergenic and chemical-free. Care instructions: Hand wash only with warm water and mild soap, use a soft sponge or cloth, rinse quickly—do not soak, dry immediately with a towel, store in a cool/dry place.

MARBLE BUFFET COMBINATIONS

Marble is a natural stone with no synthetic coatings, making it safe for contact with food. It stays cooler than room temperature, which makes it perfect for cheese/deli meats, pastries and cold appetizers.
Care Instructions: Product surface is polished to minimize absorbency, however marble is a porous material, so it can absorb liquids, therefore wipe immediatelly in case of spills from wine/coffee etc. Hand wash only with warm water and mild dish soap, use a soft sponge or cloth, dry immediately with a towel to prevent water spots.
Avoid contact with acidic/oily/salty foods, cutting directly, leaving food remains on the surface for long time. Store with felt pads or cloth between stacked pieces.

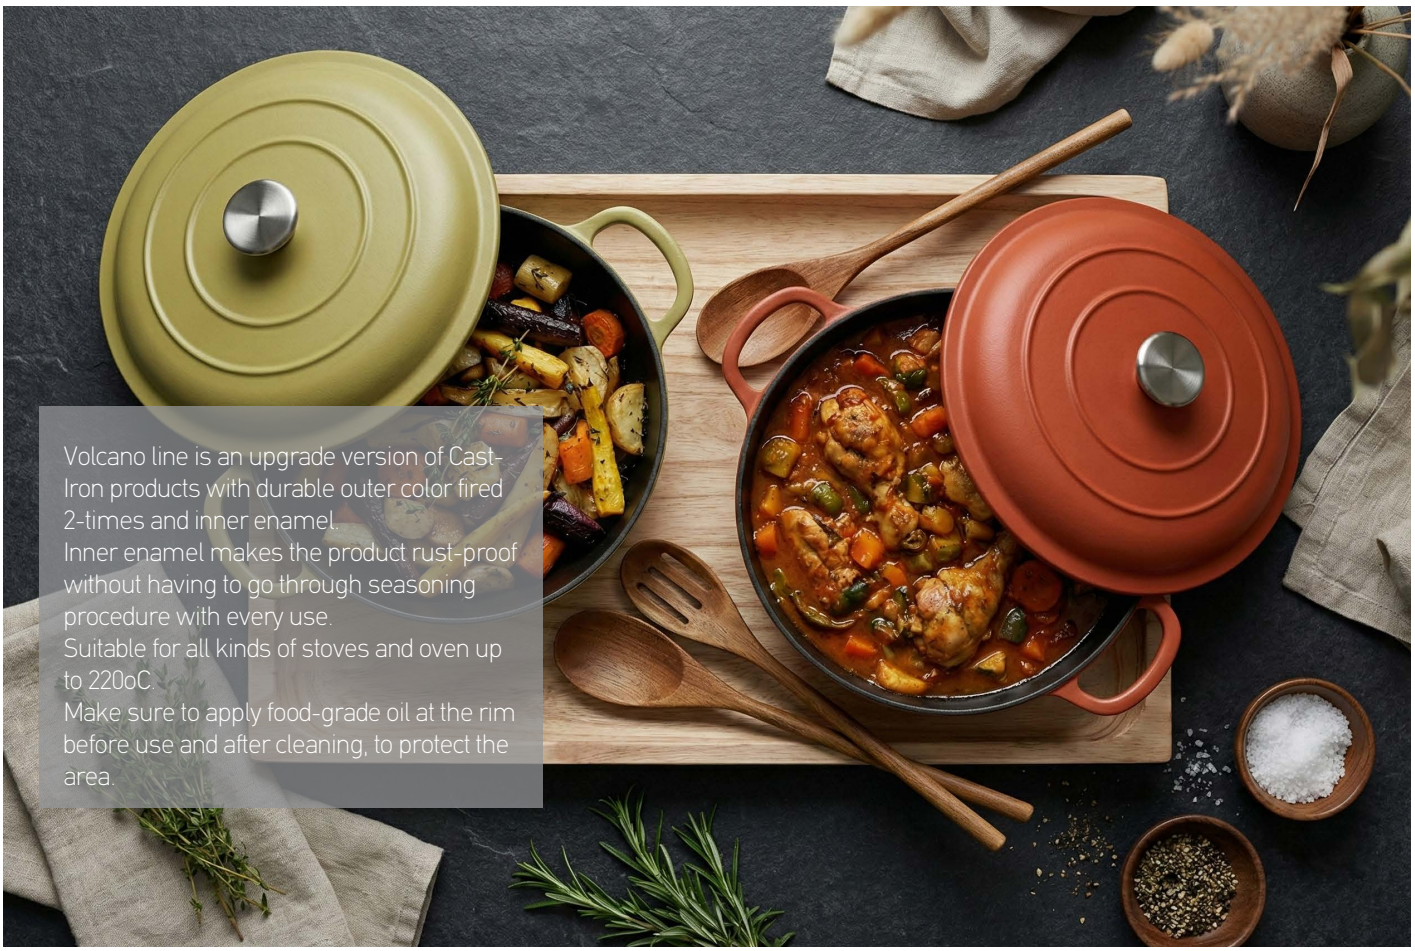
Hand Wash | Food Safe | Professional



Volcano line is an upgrade version of Cast-Iron products with durable outer color fired 2-times and inner enamel.
Inner enamel makes the product rust-proof without having to go through seasoning procedure with every use.
Suitable for all kinds of stoves and oven up to 220oC.
Make sure to apply food-grade oil at the rim before use and after cleaning, to protect the area.

VOLCANO CAST-IRON/ENAMEL PANS

Every casserole includes both Gold and Silver knobs for a custom finish.

STACKABLE ITEMS
In a crowded and highly-active kitchen, what you need is to store more kitchenware in less space. Our stackable products designed just for this need are the perfect solution for you.

FULLY TEMPERED
Full tempering process increases the durability of products which are subject to frequent heat changes during cleaning and use throughout the day. In this process the glass products are heated up to the melting point and then cooled in a controlled manner, which results in the shattering of glass into small and harmless pieces in possible breakages, minimizing the risk of injury.

EXTRA RESISTANT
Our products such as plates and bowls manufactured by spinning process are hardened against sudden heat changes and shocks with special technologies.

FINE RIM
Laser technology applied to rim areas of glasses enables us to enhance drinking experience as well as to extend the life cycle of glasses exposed to intensive use.

VIBRANT COLORS, UNIQUE PATTERNS
We invest in the highest technology to make sure that our products reflect the latest trends. Our decoration lines decorate glassware with wonderful colors and breathtaking patterns to keep you always on trend.

RIM TEMPERED
We know that you want to use our products longer. With the rim tempering process, extensive heating and cooling is applied to the rim, thus minimizing the risk of breaking and cracking while increasing the lifespan of products.

THE FINISHING TOUCH

Any drink, whether it's a cocktail, wine or beer, is best enjoyed in a glass that enhances its taste, smell and appearance . At ONIS , we truly believe the right glass adds value, as it's the first impression of the drink to your guest . We want the right glass to enrich the flavor and aroma of your drink to make it even more enjoyable. But we also want it to stand out. Choosing the right glass makes all the difference and is the final step to make the drinking experience perfect. The final effort that elevated this experience from good to great.

All details count when creating the ultimate drinking experience, where the glass is the finishing touch!
