EXPERTS IN SEASONING SINCE 1919

ABOUT COLE & MASON

For over a century, Cole & Mason has been a trusted name in seasoning, crafting high-quality mills and shakers designed to enhance both the flavour and efficiency of professional environments. Our expertise in precision grinding mechanisms and durable materials ensures that our products meet the rigorous demands of the food service industry.

Designed for reliability in high-traffic environments, our mills deliver consistent seasoning, whether in the hands of chefs or at the table for diners. With easy refill systems, durable construction, and sleek designs that complement any setting, Cole & Mason offers the perfect balance of performance and style. From coarse sea salt to fine pepper, our mills and shakers guarantee the precision and control that food service professionals require to elevate every dish.

Choose Cole & Mason for seasoning solutions that are built to last, enhance flavour with every grind, and bring efficiency to professional kitchens worldwide.

ABOUT OUR MILL MECHANISMS

All of our premium pepper mills feature our patented carbon steel Precision+ mechanism, which was developed in conjunction with Nottingham University's Aroma Laboratory. Representing a new level of performance, our Precision+ mechanism is able to deliver more pepper per turn and is scientifically proven to release more flavour than ever before.

All of our premium salt mills feature a unique sharp ceramic mechanism which prevents corrosion over time unlike other salt mills that feature a metal mechanism. Our salt mills are intended for use with dry salt crystals only.

The designs of our mill mechanisms were created in-house by Cole & Mason and are IP protected to ensure no imitations. Furthermore, they are confidently supported by our Lifetime Guarantee.

ABOUT OUR PACKAGING

Our packaging is designed with a sleek, modern look that reflects the brand's premium quality. As part of our commitment to reducing environmental impact, all new Cole & Mason products are packaged in plastic-free, fully recyclable packaging. Our most premium gift sets come in a closed gift box with a sleeve and all other gift sets come in an open front box.

THE LONDON MILL COLLECTION

Made from high-grade beech wood or durable acrylic, the London mill both honours our heritage and looks to the future with a classic, yet contemporary aesthetic. Its timeless design will prove a stylish addition to both traditional and modern kitchens.

The shape of the mill has been inspired by the beautiful Art Deco and industrial British architecture that can be found throughout the city of London, the birthplace of Cole & Mason.

Natural Beech Finish

All London natural beech finish mills and shakers are made from high-grade beech wood and come unfilled.

MIXED MATERIAL MILLS

By combining materials such as wood, metal, and acrylic, these mills bring a sense of interest, richness, and depth. They are a great way to introduce different materials and finishes into kitchens and dining spaces.

The contrast of textures creates a dynamic visual appeal that complements both contemporary and traditional interiors. Beyond aesthetics, the thoughtful material mix also enhances durability and performance.
