K|Kolk Qi 6-port charger

Professional use:

- Implementation in restaurant table
- Implementation in cupboards
- Implementation in a charger plate, trolley
- Trolleys for 24 - 100 lamps
- Implementation in outdoor/poolside
- Outdoor/pool furniture
- Spa /wellness
- Outdoor/pool furniture
- Wherever you can think of ...

Home use:

- Implementation in kitchen/dining room table
- Implementation in your office desk
- Implementation in your cupboard
- Implementation in your cupboard
- Implementation in outdoor/poolside
- Emergency light source
- Implementation in Terrace table/kitchen
- Implementation in outdoor furniture
- Carry on charger for your electronic Qi items

During daytime your extra service for your guests. They can charge their smartphone on the table*

At night time you can use same charger for your lamps*

*Build in K|Kolk Qi charger necessary

Technical features

LED	all led/halogen bulbs after your design can be used (CRI 95 –CRI 100) Up to 20 times brighter than a tea candle Colours will be programmed after your choice, matching your colour
scheme	
On/Off	Remote On/off (without batteries) Bluetooth 4.0
Battery type*	Li Ion or Ni MH 1.000 -10.000mAh
Microprocessor	K Kolk Microprocessor, can be programmed after your choice
Qi charging Pad*	K Kolk lamps are compatible with most high end charging pads on the market
Safety*	State of the Art battery and charging management installed on the PCB auto shut off with overheating/discharging/overcharging IP 76 7/8 (like high end outdoor mobile phones)
Manufacturing*	PCB and electronics are designed, developed and produced in Itzehoe, Germany

Most experienced and rewarded electronic and battery technicians/specialists are at your service.

*Safety regulation depending on type of battery usage.
 Customer is responsible for correct usage of battery and chargers.
 Production and product changes without prior notice

K|Kolk Lamps

As a committed and experienced team, we offer you new and innovative possibilities for a harmonious table design in combination with the right lighting concept.

We see it as our task not only to produce the most beautiful table lamps, but also to fulfil your wishes for a complete lighting concept with functional lamps.

We are your expert for FFE and OSE solutions with an exclusive touch.

The matching functional lamps and LED lamp systems are manufactured in Germany according to your wishes.

With remote control, W-lan, or Bluetooth.

The K|Kolk Qi charging system rounds off our range of products.

Try us - we are your lighting consultants.

Together with you, we can create interiors with your unique signature.

Our references: the world's leading hotels and award-winning restaurants.

Our mission for the „Luxury Collection

Emotions

Light is one of the most important silent forces influencing people.

The light in your home, hotel or restaurant has a huge impact on the customer's experience.

It is much more than just functional; we believe it is a control panel that evokes emotion.

Products

Bespoke German Craftsmanship.

Specialising in handcrafted lighting, the Kolk Design & Production team provides homeowners, hotels, and leading restaurants with the tools to create a unique ambience: „Your unique ambience“.

Materials

Only carefully selected, solid materials such as naturally grown wood (FCS), aluminium, solid brass, plexiglass, are used to produce sustainable, high-quality lamps to the highest environmentally friendly standards. Even the most advanced technology is subject to constant improvement. To ensure this, we install electronic components manufactured in Germany.

Service

Kolk Design & Production operates worldwide and can serve you „just in time“.

Directly or through our exclusive distribution network.

You can contact us at any time: management@kolk-design.com

USP's **K**|Kolk Lamps

Base materials:

- Solid wood
- Solid aluminum (lacquered or coated)
- Solid brass
- Corian®
- Coloured wood (layers of birch in different colours)

Metal Base Coatings:

- KTL lacquering (seawater resistant in many colours also gold and silver)
- Powder coating (all RAL colours also metallic)
- Lacquering water based (all colours can be adapted to existing colours from for example cutlery or plates)

Wood Base Coatings:

- Polyurethane boat lacquering
- Oiled (full natural feeling and look)

Matted or shiny

Base shapes:

Custom made/ Bespoke

Diffusors:

Acrylic clear

Acrylic matted white

Bubbles acrylic clear

Crushed ice look in many different colours

This material guarantees the highest brightness and a very good spreading of the light. CNC cut or casted

Lampshade:

All fabrics possible

All metal (brass) designs possible

LED :

1. Nichia 5 MM led with only consumption of 0.20 MWh
2. Cree High power led from 0.5 watt to 3 watt with 350-500 MWh
3. G4 multi Led with 1,2 Watt and only 1,20 MWh
4. Warm white (2700-3000 Kelvin) ; Cold white (5000-6000 Kelvin) ; or RGB all colour, lumen (light beam) depending on which diffusor/lampshade
5. Lifetime of led around 50.000 hrs

Batteries:

1. 2600 mAh to 10.000 MWh. Lithium-ion or Ni-mh
2. Tailor made Lithium-ion batteries one cell 5000 MWh
3. Nickel-metal-hydride batteries with 2000 - 5.000 MWh
Very stable battery, no fire danger no exhausting of natural elements

Kolk Qi Wireless charging system :

1. Kolk lamps can be charged on any Qi charging plate, independent which brand
2. Automatic detection system if charger is not working well or not working at all
3. Customer can use Qi charger for charging mobile phones and for Kolk lamps
4. Original K|Kolk charging Qi plates are state of the Art and High end.
5. Can come in different optics and shapes like round or quadrangle, wood and marble look etc...
6. K|Kolk Qi charger plates can be built in any table or plate of wood and corian[®]
7. Custom design charger boards/trolleys

KOLK High End state of the Art electronics 100% made in Germany

1. PCB is 100% made in Germany
2. Custom design possible
3. Can charge and operate both lithium-ion and nickel-metal-hydride batteries
4. Can handle 3.6 Volt – 12 Volt light bulbs
5. Very low energy usage
6. Colour scheme and light modes can be individually programmed
7. Qi wireless charging mode
8. 100% tested so enormous long life time of the product
9. Overheating detection
10. Short cut detection
11. Energy saving program
12. Dimmable function with RGB and white
13. On/off with K|Kolk remote stick (without battery!)
14. Fast charging (1,5 Hrs.)
